TO WHOM IT MAY CONCERN

INDUSTRIAL TRAINING PROGRAMME FOR THE HIGHER NATIONAL DIPLOMA IN SOFTWARE ENGINEERING.

The Bearer **Mr. Dahanayake S A S (KAHDSE232F-001)** is following the Higher National Diploma (HND) programme at NIBM.

As a partial requirement of the Higher National Diploma, a participant should undergo **six months of** industrial training. This period of training can be extended if the organization wishes. However, the candidate will be evaluated by the institute after completing the first three months of the training. The module is oriented towards developing the knowledge, skills and attitudes demanded by industry nationally and globally. Industrial training will enable the students to practically apply the conceptual knowledge gained during the classroom learning.

The trainee is expected to cultivate his powers of observation and make use of the facilities provided to enhance the skills & knowledge in each area of training. During this period the trainee must always be kept occupied. Whenever possible and appropriate the trainee should diligently engage himself in any tasks assigned.

Finally, they must prepare a report followed by a presentation with findings and recommendations for the betterment of the organization that they work for.

We shall be grateful if you could provide opportunities for our students to undergo industrial training in your esteemed organization to build future leaders in the Information Technology sector of our country.

Thanking you,
Yours faithfully,

G C Wickramasinghe
Director – School of Computing and Engineering
