SUMMARY

I am a software engineering undergraduate with a Higher Diploma in Software Engineering from the National Institute of Business Management, Kandy. I have developed web applications using **PHP (Laravel), React.js, HTML, CSS, JavaScript, MySQL, and MongoDB**. My work includes creating responsive websites and building efficient backends for applications. I have designed intuitive and visually appealing user interfaces using **Figma and Adobe Illustrator**, which have received positive feedback from users. I am **familiar with GitHub and coding best practices**. My **ability to quickly adapt to new technologies** allows me to explore fields like AI and machine learning, solving complex challenges and delivering innovative software solutions.

EDUCATION

Higher Diploma in Software Engineering	Reading
National Institute of Business Management, Kandy	
Diploma in Software Engineering	July 2022 - Dec 2023
National Institute of Business Management, Kandy	
G.C.E. Advanced Level	2019
Poramadulla Central College, Rikillagaskada (2016-2019)	

ACADEMIC PROJECTS

Web Developer Houses Rental Website	2024
Technologies: Figma, React.js, Laravel, MySQL, Python	
<ul style="list-style-type: none">Created a user-friendly website for renting houses with features like property search filters, detailed property listings, and personalized recommendations. Added a smart chat box using machine learning to answer common questions instantly. Designed the interface with Figma, developed the frontend with React.js, handled backend processes with Laravel, and stored data securely using MySQL.	
outcome: Improved user experience with easy navigation, helpful recommendations, and instant chat support. Users gave positive feedback on the website's smooth functionality and engaging design.	
Web Developer Jayasiri Motors Website	2023
Technologies: Laravel, MySQL, HTML, CSS, JavaScript	
<ul style="list-style-type: none">Played a key role in developing and launching a functional website to enhance the business's online presence, Implemented features such as a user-friendly interface, responsive design, and database integration to improve usability and accessibility.	
Outcome: Increased customer inquiries by 25% through a more engaging online platform.	

UI/UX Designer | QuickMedi

2023

Technologies: Figma/Adobe Illustrator

- Crafted **wireframes** and **prototypes** for a healthcare app, ensuring an accessible and intuitive user interface that resulted in receiving positive feedback from users regarding navigational ease.

Outcome: Received positive user feedback for the app's accessibility and ease of use, contributing to improved user satisfaction.

Backend Developer | Taste of Ceylon Restaurant Website

2023

Technologies: Laravel, MySQL

- Developed and optimized **backend systems** to streamline restaurant operations, **including order management** and **customer data processing**, Integrated secure and efficient database solutions to handle **customer information and menu updates**.

Outcome: Improved operational efficiency and strengthened customer engagement with faster response times.

EXTRA-CURRICULAR ACTIVITIES AND CERTIFICATIONS

- Volunteered with **STEMUP Educational Foundation and CoderDojo Sri Lanka**.

STEMUP Profile : <https://stemup.lk/Volunteers/VolunteerProfile?request=f56e06b0-ed6d-464f-a6a7-290e8c6d4720>

- Figma Design Course (Udemy), Python Fundamentals (Udemy), Database Foundations (Oracle Academy)
- Member of the Rotaract Club ,NIBM IT Society of NIBM.
- Participated in various coding workshops and competitions.
- Member of school Prefects Guild.
- Have Certificates In School Sports Activities.
- Chairmen of school literary association .
- Have Certificates in arts Competitions .
- Member of school media unit .
- Have zonal Education Office Certificates In Science Day Competition.
